Please make it offline we are frustrated from online pattern.

Not really.. she was overall an amazing teacher, who dealt with the subject very well

N.a.

She is good teacher but due to online class we get to much voice from there background and we got distract .

Assignments can be taken via typing format as well. writing becomes tedious in these tough times

I personally beleive that Sanavi ma'am is a good teacher. Not to compare her teaching standards to anyone but I wish more efforts are put ... Rest I believe that she has been a good class teacher as well!

Everything is going perfect all consept are going in mind ....

N.A

Lectures are going great just more regularity in timing is needed

na

It would be better if the teaching content would be more than book like latest development relating to the same

This year we found that she burdened us with a lot of writing work we would expect some change regarding that I mean we want more of learning n less of writing. Overall she is a helpful reachable teacher.

I loved how Sanavi Ma'am along with handling her children at home used to conduct lectures, it is Amazing!

It would have been really helpful if maam would have given material to study and made us study from it, rather than from ppt.

No other complain she was really helpful and always there for us .

Overall, one of the best teacher I've studied under. No second thoughts, no shyness, she's fully confident when she's conducting the lectures

Conversations in relation to ongoing trends and current affairs.

No suggestions as the lectures are effective.

It's grat

NO

She is really good at teaching and is understanding

She is such a great speaker . She provides the material also....

Teaches well but needs to provide online resources

one aspect i need to point out about my experience with the following professor is that they would wait until the very last minute to notify us of tests assignments or even lecture change timings.

She was great overall very comfortable and companionate

No suggestions as it is very well organised

Really Helpful

An exceptionally kind hearted teacher. Hope she will take another subject in Sem 3.

Ma'am is very supportive in every aspect be it studies, giving exams , she's the one who solves our each and every silly doubts . She is patient and eager to help always.

She sticks to the subject and covers the topic at a good pace. Has taken extra efforts to explain certain topics. Extra coverage of out of syllabus topics needed

Would not be clear with the subject matter and assignments. Would give information about the journal after students completed assignment. Would never respond to our questions. Would create confusion

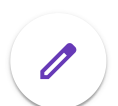

was very helpful during viva as well

For 20 marks journal was very lengthy 16 topics were given to complete the journal

Simply Great...

She has always been very helpful

Assignments were too lengthy for 10 marks

very approachable for any doubts

Very Chatty. Goes off topic while teaching. Gets very interested in knowing the student's personal life. Would like it if the conduct was professional.

She could be more active while teaching .

Camara should be ON during class

Gets off topic and reschedules lectures quiet a lot.

Very Knowledgeable both academically as well as w.r.t. current affairs.

Always keeping his cool, calm. Best among the others.

Sir your lectures have helped to gain confidence and to speak up

Huge respect for this Sir. The only person taking interest in overall development of students not restricting to syllabus.

Bhushan sir, Sudhindra sir and Archana Ma'am are the three teachers that I look up to personally. I believe sir has good potential and which goes beyond college syllabus. Hopefully in future we get more of these three teachers. And yes I was the one who drew caricature in first year of the response.

Best, understand students especially their low & high points and always believe that students can do their best!! Give lot of courage.

Sir was great overall just have one complaint that legal language was shared by 3 teachers

no suggestion, the teacher actually forces our brain to think.

Very helpful.

Lectures are interesting anyway 😊

sir should make more use of ppt and videos maybe for one such instance and better learning ppt again pictures should be included..

Political Science was taught to us by sir with an astute preparedness to solve our doubts, help us with our assumptions and queries and teach us every concept with deftness and unparalleled ability. Only suggestion is if we could keep our cameras on, all of us. Makes it all the more perfect.

sir you're really great. love your teaching and all the knowledge you provide. but somethimes its very hard for us. bit strict and scared to answer

It would be great if sir could stick to the topic

no

The semester got ended pretty fast and there was no time to rest for students. But again he is a great teacher.

none

sir you are fabulous teacher but your teaching skills are good for offline lectures and not for online. so use some other techniques

The manner of teaching is so wonderful and refreshing!! He's patient and supportive,nd really knows how to motivate us. But sir please stop giving extra attention to students who talk much

Although, sir had a comparatively lesser topics but his knowledge and information on the concepts made it crystal clear for us. Only suggestion is if we could keep our cameras on, all of us, to make it just pitch perfect

no suggestions , the teacher made subject very interesting through innovative assignments.

a lot of questions are asked which is good but at the same time the notes in the lecture are not really focused on

Ppt while teacher.

we need more of legal subjects and various legal activities and topics that might be helpful in internships and would reduce the burden for last 3 years

Best teaching in all of the teaching faculty. Very skilled and knowledgeable.  
But for students no adequate time for rest given after semester ended.

none

He is a good good teacher. Just wanna say encourage students to speak who dont really . and stop giving too much attention to extra smart people . happy to have you and you always taught to be confident and do things by our own rather than copying. Ppt of the content in classroom need to provide..

I have learned so much in my english classes with Bhusan sir . He paces the class just right so you feel challenged nd do things confidently by our selves and motivated us.

Please ask sir to either make presentations or keep their camera on . Its really tiring just to hear the voice of sir and look at the blank screen .

Very formal and helping attitude and very knowledgeable.

sir you should have used some ppt or like that method to explain the content. I feel your explanation is better for offline class and not for online.

Less friendly

Best professor one and only professor who used to keep her video on while teaching which used to make every aspect easy to understand

Great experience of attending lecture.. Very good command over the subject and all small details of the syllabus.

I think she is the only one who keeps her camera on during lecture which makes lectures very interactive she is also very proactive in helping us with necessary notes and study material

was to the point as required

I sincerely respect her for keeping the camera on in lecture. It's more interactive

Best efforts from ma'am

not listening to students, going very fast and after saying students does not stop to go slow

While teaching a ma'am should go a bit slow

To go a little slow while teaching.

-

Sometimes she goes too fast, so hard to keep track

Mam should provide sufficient notes, pliss mam

She was too fast

Different methods for teaching can be used

Ma'am gave us the most knowledgeable and precise introduction to our legal subject. The highlight, for me, was her expertise manner in explaining us difficult concepts. Only suggestion would be if we could all keep our cameras on just like ma'am did throughout the semester.

needs more interest generation

Students should be involved a bit more

she is the best because her teaching teaches a lot, she is a bit fast too, but interaction is excellent and understands us.. no suggestions she should do the same what she is doing now....

mam you are very fast and as a new learner it becomes difficult to match your pace. This subject is new for us so please understand us. thank you mam for being there

Mam should provide sufficient notes.. pliss mam

Calm and sweet deepali ma'am is ,we need to learn patience from her nd also always eager to solve our silly doubts. Thank you ma'am for teaching us.

she use to teach very fast

She was very passionate about teaching, having absolute knowledge and good teaching skills. I feel that semester got ended very fast and we didn't got time to rest.

All good

Kindly provide notes for the subject

Rajput ma'am is really nice. She explains the topic well and where required, asks questions as well.

The only issue in her online lecture is her internet connectivity problem.

Rest, everything about her is good.

Quite interactive sessions

Most of the time our lectures had network issue from maam's side

8:00 am lectures started at 8:20-8:30

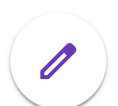

Late joining, often getting disconnected from her side was the only problem

Switch on video for teachers for more interactive session

Harshada ma'am just needs to be a little more equipped with net issues that often arise on both ends which leads to loss of teaching time

Weekly revision

Ma'am gets very annoyed very quickly. Would appreciate if she could hear what the students have to say instead of leaving the class without intimation

Attendance link Timming should expand little more

She needs to develop skill of teaching

If we could talk more on interest generation, and development , though I like her teaching method .

Teaching through ppt presentation

Faced a lot of connectivity issues from the professor's end, many times irregular in conducting lecs, no clear communication and explanation of subj between prof and student

There is a lot of technical issue in maams lec cause of which it becomes difficult to apprehend the lecs and a lot of disturbance in the background

Ma'am is unable to solve the doubts. And a lot of times there are a lot of confusions which are left unsolved

Lectures need to be punctual and not after the college hours at any time of the day. And whenever lectures are conducted it needs to be made sure that the connection and others errors are sorted

She is always angry. Not understanding

She's very kind. In lecture it sounds like ma'am just mumbles and there's always a lot of commotion to actually understand anything.

You are just reading provisions and translating them. Nothing is understood. I repeat nothing. Last sem IPC just went like that.

Very bad explanation, not understand anything, I sit for lectures yet I donot understand anything. I genuinely try to understand. Yet I cant. Pls remove her.

No suggestions

Ma'am reads the chapter a lot and there's less of explanation.

make topics more interesting by some means

I'm no one to tell the teacher, but she should first be clear about the subject then she should be teaching us.

Can use interesting ways to teach

none

No everything is fine

Ma'am taught us the subject with a wonderful expertise and passion. She made every lecture interesting. A suggestion to make online class of Economics better is to include explainer videos or articles/pieces that could help us know the subject better

Teachers know very well and has great knowledge but try not to narrate and make it interesting

There should be more teacher Student interaction

nothing.Thank you so much mam for being there

It becomes extremely boring in online class but can't help. Even teachers are doing their best.

A little accommodation for students who are facing personal issues with regards to internals will always be appreciated.

Needs improvement in teaching and should go slow while explaining things

There were a lot of assignments to submit

Could be more specific and clear about assignments

Too many assignments (true for all the subjects too)

everything from our portion completion to our upcoming viva and exam was extremely rushed, not to mention the viva and exam were mentioned very last minute not even within 2 weeks.

Keep Camera on

More material based on the pattern of exam.

Amazing Teacher. Would appreciate if the assignments would be conducted by typing mode instead of paper pen mode.

No mam is too good

More clarity as regards basic concepts

Attendance link Timming should expand little more

Typed assignments

It was during the internal obt exams when she was not prepared in advance the formation of questions itself took 15 minutes which were not compensated for. She was also not clear about her expectations in her answers and why majority of students have scored poorly

Flow of lecture should be continuous for all lecture

NA

just need to request colleges to give us some extended time in exam for writing

All good

Rivision weekly

She could be more interactive and creative , though she already has ,but little bit more would be great .

In between lectures a break of 5min should be given

Ma'am just reads out and gets confused herself when she's teaching. Can't understand what she teaches, Very helpful otherwise

Should Go slow while teaching to understand better

Ma'am should be very organised with what she is teaching. She should first know the subject and then try to convey us in a better manner. Ma'am should take advice from Deepali Ma'am to teach family law.

Has a lot of network issues but is an excellent teacher

Yes they can add more attractive thing to make online classes more interactive

Naik sir explains the topic well, also gives examples... But it would be more helpful if caselaws were provided and explained for better understanding of the topic.

for cpc more examples should be used

Professor should interact with students by taking thier names i think sometimes prof should know their students personally on student's activity or interest in subject

It might be helpful to have more interactive online classes with presentations and encouraging more participation from students.

Sir need to elaborate things with some illustrations and not just go through the book.

Sir has been very regular In teaching us the subject and is very knowledgeable the only issue was to connect to sirs lecture on online platform due to lack of new techniques by sir

Provide PPT lecs more, rather than only explaining from the bare acts

Could have been conducted in a quieter environment. Too much background disturbance

Teaching can be done in an interactive way and not in a monologue so to ensure all the students are attentive and understanding the subject considering the heaviness of the subject

It is very monotonous

sir you give good lectures

Never understood a word of anything he teaches in all sems he taught us. He always sounds like he speaks to himself, he's not very clear with his own concepts and we just can't seem to pay attention because we don't understand what's going on. Overall sir has helpful nature.

Sirs son/daughter cries a little bit more during online lecture so the voice is not audible sometimes the only problem rest all is perfect

No

NEEDS TO BE MORE ACTIVE IN CLASS, USE BETTER EQUIPMENT FOR ONLINE CLASS, NEEDS TO USE APPLICATION BASED TECHNIQUES AND MORE INTERESTING WAY OF TEACHING.

Sir, the way you teach I always wonder you got you into teaching. Legal language being such an easy subject, yet last sem didnt understand a word.

This sem I got scared when you were given the subject TOPA because it such an important subject and you made it horrible. If someone comes and asks me short title that is section 1 of the act, i will not be able to speak. I tried hard to understand subject through youtubes and all still input was required by faculty. I urge VES to get teachers who can actually teach. I donot understand a single word of Naik sir, kanchanpurkar mam and harshada mam

Sir is great but if college keeps in mind which subject should be given to which professor would be helpful for us. TOPA or Family Law should have been given to Deepali Ma'am. Sir could have been given something else.. like Environment in last sem, legal in previous sem. Some easier subject Please give Deepali Ma'am atleast one subject.

Sir is very thoughtful teacher who puts a lot of thought into how he presents the material , also he encourages us to learn not only for the exam point of view but in general to gain knowledge and thought

he is experience and has very much knoweledge about law field. But extra talking happen in the class

it would be better to have one session only instead of two at a stretch.

Excellent faculty, good knowledge, covers topics out of syllabus as well like Sheetal sir. Motivates us and also points out our mistakes and suggests corrective action

even though his hold on language isn't the best, he did a good job explaining everything very nicely

AMAZING KNOWLEDGE, GREAT TEACHER, VERY INFORMATIVE. "Please allow late coming students sometimes - on behalf of humble students"

good lectures

His teaching is great. Some things go over the head but he always explains and helps.

Sir, You have such good command over subject. You teach soo well. The only thing you can do is, try to teach in Hindi. You have good command, in hindi we will understand it more better. The 1% ambiguity that exists will also be removed. Sir I genuinely love the way you teach. The others might give negavtive feedback bcz of language issue.

Best teacher of sem 2

She is a very helpful teacher and conducts informative, interesting and interactive sessions

very interactive and made sessions interesting

Excellent nice

Needs to be more systematic in format of teaching

Best professor was very helpful and she even allowed us to write assignments on online mode

Very good teacher. Is teaching amazingly with the online situation. Understands students point of view and importance of their time and kept assignments in typing mode. Would request other teachers to follow the same

She is good

Thanks

Her sessions were intercative

Awareness abt sub 100 points

Should use different modes to conduct class

Always understand problems of students..

Creating some active polls and debates online.

I don't think any suggestion is required. She teaches perfectly

No.

Maam tends to divert a lot which is a lot of fun sometimes, but to catchup the learning process becomes a little mechanical

she is very good

-

Have ppt's

none

More interactive sessions, discussions and maybe even keeping our cameras switched on to avoid the monotonous viewing of a dark screen, throughout.

Na

No suggestions ..our teachers teaches us so well

Everything is on point

No

few more class activities

If teaching process is made little bit interesting .

Not providing so lengthy classes as it feds up student, it should be of max 4 hours

Nothing can help online class make intresting. It will be boring anyway

Offline only we want ..

I think more notes should be provided and should be uploaded in classroom

Please request teachers and students to put on their cameras or atleast make presentations for teaching .

Sanavi maam is the teacher in whom I am not able to find anything to suggest... I love the way she teaches, inspires and make us comfortable at our own part .... I don't think so that i should suggest anything her for change ...

Professors keeping the camera onn as we understand the topic well by it

By keeping camera on once in a week just to get to know and make everyone comfortable to interact.

Literature should be little more fun to teach. She's a great teacher but still it's no fun really. It's too quick.

mam, i feel you only interact with some set of people which shouldn't be happening and stop asking personal questions in class. Rest mam you are awesome,thank you so much mam.

We are well aware of efforts you put into our class also ma'am has lot of responsibility to look after and also to take care of her baby child. So Thanks for going with us and teaching and beyond for our u showed us so much love and being such a caring and important part of our class teacher. It was great to have you.

Overall good

His teaching methods are great. Very clear and concise.

I would like to recommend that sir should start giving lectures and explanations more towards PPT's as thats also a best method of understanding concepts towards such particular topic

While his discussion oriented teaching style is excellent. Making the class a little exam oriented as well may help.

his voice was not clear in online session, may be network issue. his teaching was good but couldnot hear properly

Sir is highly knowledgeable. Very happy about teaching method, swift and wide range coverage of topics including the detailed background information that is cherry on top.

it would be better if some notes are made available before the lecture

SATISFIED

He should be on WhatsApp too.

Okay speaking frankly. Sir has good knowledge! The potential is untapped. Let sir teach more subjects, I feel like waking up for his lectures because it's just how a teacher should be teaching. Sir is very dedicating towards pushing students.

no suggestions , the teacher actually made everything so easy to understand.

He is a calm and thoughtful sir who really cares about us. He helped us through our exams and I would highly be grateful for this. Thank you sir

sir should have used more pictures and make the slides attractive only sentences on slides make it boring to learn pictures will help a lot and catch more attention and will help in better learning.....ppt is must for history

..

The way he teaches is the best I don't think so their is need for any suggestion in the teaching process

none

It takes a profound ability to make concepts, that have been taught and re-taught for years, interesting and exciting. Sir's ability to vividly explain the details and give us the storylines has made it all just perfect. Only if cameras could be kept on by all of us

Sir knowledge is beyond anything just make it interesting a bit

Thank you sir

no

Again the semester got ended pretty fast and no time to rest.

Sir has been an absolute role model from the very first day. He made a new subject seem so approachable and easy to understand. A small suggestion would be keeping our cameras on just to make everything much more similar to our previous experiences of in-person education. Overall, couldn't have been better.

He is the best for logic subject

for logic he was very cool

Noooo suggestion but ppt of the concept should share for every subject in classroom.

Just need some breaker during his flow, he keeps on going

Classes with Sudhindra sir have been so worthwhile and best has an amazing way of breaking things down and have lectures interestingly he is understandable, and always keeping lect light

and fun.we love u Sudhindra sir thank you sir .

Maam used to speak very fast due to which i was not able to understand certain aspects

Semester would have been better if notes were provided .

Needs to be more interactive with students

Teaching skills are excellent

Need to give notes based on the paper pattern. Many times we are thinking about the subject and gets confusion.

Lecture should go little slow

Overall best teacher

Providing some better notes to refer to considering that torts was a vast and uncodified subject instead of referring to ratanlal dhirajlal in the situation that we all were in that is exams approaching in a month hearing things like "I will not be spoon feeding you" was discouraging

was glad that the approach was to the point due to time constraint

Very good professor. Very chatty but always on topic.

Mam you are hardworking, excellent. I have sat for all your lects and noted down everythng. Your lects are really helpful. This is an honest review.

great lectures

Excellent teacher and very interactive. Need more of her physical lectures.

Always drifts away from the topic. Doesn't actually teach anything that we can write in exam or make an answer out of. She's very enthusiastic and helping in nature and very approachable.
