Accredited 'B+' Grade with CGPA 2.72 by NAAC (1st Cycle)

7.1.3 Facilities for Waste Management

At V.E.S college of Law, we are committed to sustainability and environmental stewardship through our comprehensive waste management program. Our institution ardently supports the principle of zero wastage and actively works to minimize environmental pollution. We have established an efficient waste management system that emphasizes both waste reduction and resource recovery. Waste generated on campus is systematically processed and repurposed as valuable manure, contributing to the maintenance of our green spaces.

In line with sustainable practices, the college ensures that liquid waste generated on campus is properly managed and disposed of. The liquid waste is connected to the local Municipal Corporation of Greater Mumbai (BMC) sewage service, ensuring compliance with municipal standards and preventing environmental contamination.

To ensure a clean and hygienic environment, the college has strategically placed garbage bins throughout the campus, facilitating the effective segregation and disposal of waste. In alignment with the Government of India's Swachh Bharat Abhiyan, our college organizes regular cleanliness drives, engaging the entire campus community in efforts to uphold high standards of cleanliness and sanitation. We have different bins for wet waste and dry waste all over the campus including classroom, corridors, stilt area etc.

Additionally, our waste management program includes educational initiatives to raise awareness about waste segregation and recycling practices among students and staff. By integrating these practices into daily operations and fostering a culture of environmental responsibility, V.E.S Law College strives to set a benchmark in sustainable campus management and contribute positively to the broader environmental goals.
