(Pharmaceutics)  
Dr Sameer Padhye : Assistant Professor  
(Pharmaceutics)

Supported & guided by

Shri B.L. Boolani  
Trustee in-charge

Dr. Supriya Shidhaye  
Principal

## ABOUT THE PROGRAM

**Objective.** To provide a refresher course in innovations in pharmaceuticals, healthcare and biologicals to pharmacy professionals in the industry who want to update themselves with recent developments in this field.

**Design.** The sessions will emphasize on the understanding of the basic drug delivery principles learned in graduate programs and applying that knowledge to industrial scenarios to bring about innovations. This will be accomplished by arranging for lectures by experts in the field of pharmaceuticals, healthcare and biologicals and by small-group, context-focused discussions that require participants to apply the principles outlined in the lecture series.

**Evaluation.** Participants understanding of the concepts discussed within the course will be assessed via home assignments

**Duration.** This program will be spread over six months duration and one module per month. In one month the program will be conducted on alternate Saturdays (1<sup>st</sup> and 3<sup>rd</sup> or 2<sup>nd</sup> and 4<sup>th</sup> depending on availability of participants). Each class will be of 3-4 hours duration.

## MODULES

- **Module 1: Innovations and Business potentials**
- **Module 2: 505(b)2- Innovations for US Market**
- **Module 3: Theoretical concepts of novel drug delivery systems**
- **Module 4: Biosimilars: Challenges and Opportunities**
- **Module 5: Challenges, Opportunities and Regulatory aspects of Nutraceuticals**
- **Module 6: Innovations in Packaging and drug delivery devices**
- **Module 7: Continuous Manufacturing in Pharmaceutical Industry**
- **Module 8: Data Solutions/Market research**
