Report For Spoken Tutorial

It is well known that seeing and hearing someone explain a process greatly improves understanding. On this site, there are a variety of spoken tutorials that will help one to learn and use open source software.

The Spoken Tutorial project is the initiative of the 'Talk to a Teacher' activity of the National Mission on Education through Information and Communication Technology (ICT), launched by the Ministry of Human Resources and Development, Government of India.

The use of spoken tutorials to popularize software development and its use is coordinated through this website.

(The Spoken Tutorial project is being developed by IIT Bombay for MHRD, Government of India)

The Workshops were conducted for all the years of students in the department during the odd semester for the academic year 2016-17.

First year students had Libre office suite as prescribed by the MSBTE Similarly second year students had C and final year students learned KI-CAD through spoken tutorial.

Online test was conducted for the second year students and the results are attached below for reference. First and final year students did not have online exams.
