#### Online Education

1. Does all programs/courses were completed on time.	Yes		
2. Measures taken to complete the syllabus of courses and programs.	Use of ICT tools enabled to complete 100% of syllabus on time and posting lecture notes, uploading boardwork, lecture recordings, etc. in Google classroom by all departments. Use of online educational videos (eg. solid-state involving 3d pictures as well as the instrumentation part of spectroscopy and demonstration of actual experiments by original authors). Self-made ppts/ videos/ live demonstrations of practicals by teachers (Microbiology). Use and sharing of ppts made by experts from various fields as well as authors of the texts in use (access courtesy of our Library). Teachers also explored the use of MS Paint as blackboard, use of Pen Tab, and Open Board software for online teaching (Physics). Some used Monte Carlo (Physics) techniques and graphic organizers like MS Excel for visual representation. MS Excel was also used by many to solve sums, do statistical calculations, and analyze research data, instead of using the traditional blackboard. This helped save the calculations if the problem extended beyond one lecture. Tutorials/projects, class tests and internal assessments comprise the formal evaluative proceses, but students and faculty met beyond online classroom hours for doubt-clearing and curricular discussions. Extra hours were devoted to taking remedial classes after completion of internal/regular class test to bolster students preparedness for examinations		
3. The period of delay in completion of syllabus (in months).	0		
4. The period of delay in conducting exams (in months).	0
