

## **Career Guidance and Placement Cell 2019-2020**

***“Success is a personal standard, reaching for the highest that is in us, becoming all that we can be”***

For the final year students placements give an opportunity to gain specific skills of their subject or industry as well as it also helps in inculcating employability skills to get ready for the real - life work. It also makes the students acquainted with the knowledge of a particular industry or sector. This in turn makes them successful and confident in taking the right decisions for their career in the future.

With respect to the holistic development of our students and making jobs available to them the Career Guidance and Placement cell conducts many grooming sessions, seminar sessions and off and on Campus Placement opportunities to the students. The placement cell thus tries to bridge the gap between Academia and Industry.

Sessions were conducted for ***Soft Skills development, overall Career Guidance*** and for introduction of new avenues to the students.

- On 15th June 2019, Ms. Sharvari Kotnis Majumdar conducted a session on *“It's not just about Job”* related to career options after graduation for 30 students of T. Y. BSc Computer Science.
- A lecture on *“Career avenues in the Industry for Biology and Chemistry graduates”* was arranged for B.Sc and M.Sc students of Microbiology, Biotechnology and Chemistry on 21st August, 2019.
- A workshop on *“Resume Writing and Group Discussion”* for third year students of all courses was organised on 12th December, 2019. More than 250 students attended the workshop.

### ***Students also completed Internships***

- Three students of SYBSc Computer Science did an Internship for Tata Power company's NGO, Dhaaga from 25th April to 10th June, 2019 to digitize their work by developing a software for them using MySQL and Python.

- Six students of Second year and Third year Computer Science did internships in summer/winter vacations through internshala and/or for various clients.

In the academic year 2019-2020, the Placement Drives were conducted from August to February with off campus, On campus and pooled campus placements. Total of 20 companies from different streams participated in the same.
