

Principal's Annual Report for 2016-17

To everyone's surprise and elation, the academic year 2016-17 beat the flurry of activity of the previous year, showing the college's readiness to getting accredited by NAAC. All missing links were found, gaps filled and new vistas of excellence created. The judicious utilization of the **FIST and Star College** grants further equipped the college to rise to greater heights. Also with three years into the constitution of the **Best Department Award**, the healthy competition seems to have found roots and translated into a plethora of activities and laurelsas the increasing length of these annual reports show!

With the objective of evolving the concept of '*smart colleges*', a national conference that was organized by VES College of Arts, Science and Commerce on 17th and 18th February 2016 soon started translating into reality with the implementation of some **short term measures**. It is heartening to see some of the **ideas of this conference taking shape in front of our eyes in our very own institution**. We are proud that some of the recommendations of this Conference that have seen the light of day in our college. These are categorized below as per the four subthemes of the Conference:

- **Role of ICT in Education:** A **Smart boost to Research** came from the DST-FIST grant and the DBT-STAR that helped the college set up two smart facilities in 2016-17: a **Central Instrumentation Facility (CIF)** flush with brand new high-end instruments and an **Animal Tissue Culture (ATC) lab**. In 2016-17, 13 more rooms are being fitted with LCDs, making 50% or half our room capacity E-enabled. The College is in the process of enabling Wi-Fi Zones in selected areas to facilitate smart learning mechanisms.
- **Eco friendly & Student friendly Campuses:** A **Green Audit** was undertaken by **Senergy Systems** at our college during of January 2017 as a reflection of our commitment towards better environment and conservation of energy with recommendations for **lighting & ventilation, water quality & conservation, waste management, , infrastructure usage and green IT culture**. These suggestions and others are well on their way towards implementation. A notable achievement has been the **installation of solar panels**: With an initial investment of Rs. 15 lakhs, our college has operationalized 20 KV electricity supply to the main Grid. Use of this clean energy source will also help reduce our electricity bill especially during vacation when we shall be feeding more into the grid than withdrawing from it. We have also started replacing old tube lights with LED lights that will further save electricity. In the phase one of this endeavour, 30% replacement has been done. With the help of our vendor Digital Edu, a **new Student App** has been introduced. This will help students access information related to their attendance, college notices, time table, their academic performance etc. at the click of a button. **Some Wellness Initiatives** taken include **Yoga Sessions** for staff and students and conduct of a **cancer detection camp** (a mobile van brought on the premises conducted free mammograms). The BMM department also organized a health camp with multiple services for the staff and students.
- **Role of ICT in Administration:** **It is planned to scan of Original Staff Documents**

(related to basic and further qualifications/ achievements) starting from 2012-13. It will not only help the administration, but also the staff themselves who can now generate copies of their documents anywhere anytime. The electronic boards (**Digital Signage**) installed on the premises display constantly the important information and notices for students. They also help share and applaud the students as well as the college's accomplishments.

- **Smart Practices for Quality Enhancement:** To promote **cashless transactions** in the wake of demonetization in 2016, the BMS department in its novel entrepreneurial event, "Rural Haat", encouraged payments through payments apps like Paytm. **In Entrepreneurship Workshop 2017**, the Economics department encouraged the introduction of **innovative ideas, products and services.** The College has also explored nurtured **newer collaborations** with industries and institutions that were not available earlier. The Economics Department organized and conducted a special course under **Barclays' 'Global Youth Employability Initiative'** in consultation with Art of Living Skill Development Centre, IAHV, Barclays Bank, Laurus Life Skill Edutech Private Limited and National Skills Development with 190 students benefiting in total. The commerce department tied up with a Japanese company, **Maruhatchi Tent Corporation** for internship of its students. The Computer Science Department has tied up with **Mastek** for placement, Microbiology department tied up with Konark to conduct a national level poster competition, Microbiology and Biotechnology department has tied up with **Homi Bhabha Centre for Science Education (HBCSE)** for "History of Science" from August 2016 to March 2017. The College has taken multiple measures to boost its **brand image** by adequately and appropriately making its activities, achievements, facilities etc. well known. It has done this by launching a **new website** along with its sister institutions, getting **represented on LinkedIn** (having 500 plus members).

In the above endeavour of moving towards a **smart college**, we are also trying to do our bit for **society**. One step in this direction is the participation and contribution on various available platforms. In this respect **Principal Dr. J Phadnis** made a presentation on **Best Practices adopted by our institution** at the "MQH: Making Quality Happen" Competition on 15th and 16th March 2017, organized by IMC Ramkrishna Bajaj National Quality Award Trust.

Another avenue for making an impact on society emerged from our participation at the **XIII Triennial National Level Conference of IWSA on "Sustainable Development in India: Role of Science and Technology"** held from 2nd to 4th Dec 2016 at IWSA Campus in Vashi, Navi Mumbai. At this Conference, sharing our experience and expertise, **Principal Dr. J Phadnis** delivered a talk on "Innovative Home Composting of Kitchen Waste – A reality". Also, at the same conference, our student, Mr Alok Rajesh Singh from MSc Microbiology (By Research) under the guidance of Prof. Mrs Santhini S Nair secured the award for "Best Oral Presentation" on the topic 'Development of an Effective Microbial Consortium for Greywater treatment.' He also received the 'Best Poster Award' for his work on 'Development of a Laboratory Scale Process for Greywater Treatment. He is currently in the process of setting up 'Lab to Land' project which is a 400 L/day greywater treatment system at IWSA Campus, Vashi. The proposed 'Lab to

Land' project is a collaborative effort from **IWSA & VES College of Arts, Science, & Commerce** in order to design & set up a greywater treatment system at **IWSA Vashi campus** with the goal of treating their hostel kitchen sink greywater & using the same for gardening.

A notable feat of this year was that **Dr. Anita Kanwar** was conferred the “**Distinguished Associate Professor Award**” by Spoken Tutorials and Computer Society of India on 15th January 2017 at IIT Bombay for successfully demonstrating innovative and outstanding teaching methodology, mentoring and networking academia-industry programs for the symbiotic benefit of the stake holders in the institutions and the industry, contributions in research activity, industrial projects, organizing conferences, seminars, guest lectures etc. in association with professional bodies or industrial organizations or active participation in similar programs. **Mrs. Sunita Sherifani** was also honoured by Guru Nanak College on 9th March 2017 for her **contributions as a teacher for postgraduate classes**. **Dr. Sadhana Singh** was awarded **Rashtriya Yuva Puraskar** for the year 2017 for the contribution in education by K.N.D. Bahuuddeshiya Mandal, Nashik on 19th March 2017.

As part of **our rapport building efforts**, a number of orientation programmes and parent-teacher meetings were organized by various departments and at college level. Numerous competitions were organized in the college to harness the talents of students, who bagged numerous prizes at intra and inter-collegiate events. No wonder this year saw a huge competition for the **Best Student Award** with 10 students being shortlisted as finalists: Ms. Aditi Pawar from TYBSc Biotechnology, Ms. Sushama V from TYBSc Biotechnology, Ms. Vishakha Mali from TYBSc Biotechnology, Ms. Debangana Ghosh from TYBMM, Ms. Debika Chatterjee from TYBMM, Ms. Richa Sharma from TYBA (Economics), Ms. Rupani Barathi from TYBMS, Ms. Varsha Singh from TYBSc (Microbiology), Ms. Deepthi Nambiar from TYBSc (Microbiology) and Ms. Varsha Singh from TYBSc (Computer Science). From among these, **Ms. Vishakha Mali from TYBSc Biotechnology was selected the Best Student of the Year 2016-17.**

The college also organized an **induction programme** for its new staff members, to orient them and equip them with the necessary skills that are demanded from the teachers in this fast changing and dynamic scenario, on 1st April 2017 with the following schedule of talks:

- “**Teacher’s role in institution building**” by Mrs. Samhitha Sharma Kain.
- “**Personality Development through positive attitude**” by Mr. Sanjay Premchandani.
- “**Functioning at VESASC**” by Dr. Mary Stephen.
- “**Growing and developing as a college teacher**” by Principal Dr. J.K. Phadnis.
- “**Library facilities and online resources available for professional enhancement**” by Mrs. Meghana Sanjeeva.
- “**Performance based Appraisal System and Research Avenues**” by Vice Principal Dr. Anita Kanwar.

This year’s most magnificent event, the **Degree Distribution Ceremony** was held on 18th March 2017 in the college auditorium. It saw a host of distinguished dignitaries, including our

forever supportive management, and meritorious students and staff, all looking dapper and dressed smartly in the traditional convocation attire! The overwhelming response by students to be a part of this event necessitated the event being held in two shifts. The Chief Guests of the two sessions were: Chief Guest **Dr. Sudhir Panse** from Institute of Chemical Technology and Chief Guest **Dr. Rajan Welukar**, a highly **distinguished educator** who has served the cause of Indian Higher Education for more than **32 years**.

The following report highlights some activities and achievements in the academic year 2016-17 that symbolize our continued quest for excellence:

(M) Student Activities : Women’s Development Cell

The WDC ensures that an atmosphere of safety and security is created in the College. In keeping with this motto, the WDC members personally visited all classes and spread awareness about functioning of WDC in the beginning of the academic year (15th June 2016). Following is a brief of the activities organized through the year:

- An **orientation session on safety, security and wellness** for 2 hours was organized with the agency ‘Anss’. The programme created awareness about women’s power and women’s rights as well as knowledge of stress management and self defense techniques. Forty students from the Arts and Commerce streams attended the programme.
- As first year students missed the opportunity for this orientation programme, the **second phase of orientation on ‘Safety, security and wellness’** was organized in the month of December (17.12.16). The WDC Committee with the Anss staff visited all First year class rooms and spread the awareness. Teachers of the respective classrooms volunteered support for this endeavor.
- Students from various departments enrolled for the **3-day workshop titled Independence ‘The Art of Survival’ M2O2- My Originality – My Oxygen** which

was conducted in collaboration Dr. Sudhakar Upadhy and Ms. Apoorva Wadikar of agency Anss. The three day workshop was conducted on 20th, 22nd & 23rd February. Student empowerment was focused through creating awareness about power and rights, knowledge of stress management and self defense techniques. 30 students participated for the workshop.

- **A Program on Cyber Safety** for the students of VES College was organized on 26th July 2016. This program was an effort to make our students' safe online and to help youth to understand the pros and cons of the REAL and the VIRTUAL world; thus take responsibility of their actions while on the World Wide Web and prevent them from internet abuse or harassment. The program which lasted for 3 hours was attended by staff and students. We had more than 250 registrations for this event and the program was a grand success.
- **WDC coordinated with Majlis Legal Centre to conduct "Expressions"** on 13th August 2016. Expression was an intra college event in which students presented their views about a topic closely related to justice for women 'Ideal victim'. Students were asked to present their views about who they think is the 'Ideal victim' of sexual and domestic violence: "The woman who fights the violence or the one who silently lives through it". In this mega event, students presented their views as posters, Power Point Presentations or in the form of essay or more actively by participating in elocution and debate. This endeavor made many students to come forward and share their views
- Our College aims to provide an inclusive environment which promotes egalitarianism, values diversity and is devoted to maintaining an environment of dignity and respect where the students are provided an atmosphere to develop their full potential. Keeping this in mind College had given the responsibility **to formulate the gender policy**. WDC team has worked on the same and submitted report to the principal in the month of September 2016.
- WDC members and student representatives are deputed to **attend workshops and seminars on women empowerment**. The Women Development Cell of Vivekananda Education Society, Institute of Management organized a one day seminar on 23rd September, 2016 at the VESIM auditorium. The theme for the seminar was 'Power Talk: The Success Mantra of the New Age Women'. This interesting session summarized the challenges faced by women to establish their career and also brought out some practical dos and don'ts that is essential to scale success. The seminar was attended by WDC Dr. Radhika Mohan and student representative Ms Jyothi Jacob.
- Another initiative towards empowerment was dealing with harassment against women at work place. Dr Radhika Mohan and Dr. Minal Prab attended the **awareness programme on dealing with sexual harassment** in HEI on 14th February 2017. It was a full day programme conducted by MSCW & Mumbai University at fort campus Mumbai University.
- **Sensitizing students and staff on gender issues** and dealing with sexual harassment has been an important agenda of WDC. WDC members trained by MSCW inducted the college students and staff about dealing with sexual harassment in HEI on 1st march 2017.

- WDC team had attended minor **cases of harassment** received from first year students on 2.8.2016. This triggered the need for a talk on gender sensitivity. Prof. Chandy addressed the FYBA class on gender bias and stereotypes to handle the concern and an antidote for prevention against gender bias and enhancing gender sensitivity.
- Dr. Minal parab and Prof Chandy spoke to FY Bcom students on **gender sensitivity** on 20. 12 2016 as well sensing the need to curb gender bias existed among the students.
- WDC student members and volunteers actively engaged themselves in WDC activities. **Health and hygiene** messages were taken up as an area to be address by WDC student’s wing. Along with teachers they made posters which highlighted the importance of hygiene and put up in girls common room and girls toilet. Posters were put up about the proper use of the available facilities in the toilets, use of dustbin etc 14th December 2016.
- Women can bring in change and their commitment can strengthen the democratic fabric of our nation. WDC student representative, Ms Jyothi Jacob, along with Ms. Lathika was deputed to attend the student parliament held in Pune from 17th January to 19th January 2017 to mark “empowering women to empower our nation”.

(Q) Student Activities:Outreach and Extension Activities

The outreach cell is dedicated towards extending social and extension services to people in and around Chembur. This cell functions mainly by the active participation and contribution of our students' under the able guidance and supervision of the core committee of the cell. The purpose of the cell is to sensitize the students' regarding the problems and hardships faced by physically, mentally and visually challenged students of our community. Our college is in collaboration with many NGO's and institutions to carry out this endeavor: NASEOH, Bal Anand, Umang and TISS.

The outreach cell undertook the following activities for the academic year 2016-17:-

- Groups of students' (about 100) were sent to NASEOH to assist physically challenged children with their job work. NASEOH is an NGO located in Chembur working for the empowerment of children and adults who are physically challenged and visually impaired. Each student's tenure consisted of 30 hours of such work. During the course of the year, 12 groups completed the tenure at NASEOH.
- A group of 2 students' completed tenure of 20 hours at BAL ANAND which is an orphanage-adoption center at Chembur.

- In the annual donation drive of NASEOH, 100 students' participated to raise a healthy sum of Rs. 36,000/-. Our college was felicitated with a trophy on 18th March, 2016 for the same.
